DETAILED ACTION

Drawings

1. The drawings filed August 31, 2002 have been accepted as formal drawings by the examiner.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-5, 18, 24 and 30, drawn to compounds of formula I and use, classified in class 514, subclass 217.
 - II. Claims 6-8, 19, 25 and 31, drawn to compounds of formula II and use, classified in class 514, subclass 367.
 - III. Claims 9-12, 20, 26 and 32, drawn to compounds of formula III and use, classified in class 514, subclass 231.5.
 - IV. Claims 13, 21, 27 and 33, drawn to compounds of formula IIIb and use, classified in class 514514, subclass 183.
 - V. Claims 14, 15, 22, 28 and 34, drawn to compounds of formula IV and use, classified in class 514, subclass 417.
 - VI. Claims 16-18, 23, 29 and 35, drawn to compounds of formula V and use, classified in class 514, subclass 226.5.

The inventions are distinct, each from the other because of the following reasons:

Art Unit: 1624

3. Inventions I-VI are distinct because the compounds of the individual formulas lack a common core and are structurally diverse and patentably distinct one from the others.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Claims 1, 6, 9, 13, 14 and 16 are generic to a plurality of disclosed patentably distinct species comprising the compounds of the working examples. **Applicant is further required under 35 U.S.C. 121 to elect a single disclosed species**, even though this requirement is traversed. Related structures will be grouped together for examination purposes.

6. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
